Instructions

- To pass the test, correctly answer at least seven of the ten quiz questions (below), or have at least one continuous minute of solid copy on your copy sheet from the test transmission itself.

- All papers used to administer the code test **must** be collected by the VEs.

- Print each answer **exactly** as it was sent. For example, if the station location was sent as "WEST VA", the answer must be "WEST VA", not "WEST VIRGINIA" or "W. VIRGINIA". If we ask for the city and you put both the city and state, though, this will **not** be counted wrong, unless the additional information that is included is different from what was sent.

- Be sure to include any special identifiers sent with the call sign(s).

- Remember, of the two call signs in the exchange, the first call sign is the receiving station and the second call sign is the transmitting station.

- **Print** legibly; put your answers in the blanks at the right.
